

Assessment in Blended and Online Learning

Assessment Tools for Online Environments

Gamification and Discourse Tools

Kahoot

Teachers can integrate **Kahoot** into instruction to present instructional quizzes and trivia to students. Multimedia can be integrated to enhance engagement.

Integrate Slides

Insert a variety of questions

Quizizz & Flip

Teachers can use **Quizizz** to assess students via interactive quizzes. Quizzes can be chosen from a library of already created quizzes or create new assessments. Teachers can also create differentiated learning experiences for students. **Flip** is another tool that also allows students to upload video responses relevant to the discussion topics.

Video and Audio Response

Fill-in-the-Blank

Open-ended Responses

Drawing and Matching

Presentation Tools

Nearpod

Teachers can use **Nearpod** to show learning content (student-paced and LIVE), interactive slides and activities, and assess student progress.

Matching Pairs

Multiple Choice Quiz Game

Pear Deck

Teachers can use **Pear Deck** to show learning content (student-paced and LIVE), interactive slides and activities, and assess student progress.

Open Responses

Drawing Knowledge

Edpuzzle

Teachers can integrate **Edpuzzle** into their online instruction to present learning content and simultaneously assess student comprehension.

Quiz Competitions

Traffic Light Polling

Quiz Tools

Edulastic

Teachers can use **Edulastic** to develop assessments utilizing 30+ question types. Standards can be integrated along with depth of knowledge and Bloom's Taxonomy.

Fill-in-the-Blank

Drag and Drop & Graphing

Google & Microsoft Forms

Teachers can integrate **Google Form** and **Microsoft Form** to assess students via surveys and quizzes. Surveys and quizzes can include branching elements to move students through the assessment. Surveys and Quizzes can incorporate videos, images, points values, and immediate feedback.

Multiple Choice Grid

Upload multimedia
